Job Description:

- The Instructor Assistant assists the lead Instructor in facilitating a positive learning environment, supporting students in their experimental classes, and personal development. This role involves working closely with students, Instructor's, to promote educational success and ensure the effective implementation of lesson plans.
- Implementing a thorough risk assessment and control strategy in pharmacy labs is essential for safeguarding health and ensuring compliance with safety regulations. By identifying hazards, evaluating risks, and applying effective control measures, pharmacy labs can create a safer work environment for all personnel involved. Regular review and updates to risk assessments will help maintain safety standards and adapt to any changes in procedures or regulations.
- Provide documents related to experimental classes for college accreditation requirements.
- Laboratory Area's:
 - 1) Supervising & Control the Pharmaceutical Analysis I & II Laboratory.
 - 2) Supervising & Control the General Chemistry Laboratory.
 - 3) Supervising & Control the Organic I & II Chemistry Laboratory
 - 4) Supervising & Control the Biochemistry Laboratory.
 - 5) Supervising & Control the Biology Laboratory.
 - 6) Supervising & Control the Anatomy & Physiology Laboratory.
 - 7) Supervising & Control the Pharmaceutics I, II & III Laboratory.
 - 8) Sharing the responsibility of main store, ordering requirements.
 - 9) Risk Assessment and control of reagent & chemicals.
 - 10) Reset & servicing of Lab instruments.
 - 11) Actively participant in the admission & registration of Pharmacy 2000-2019.
